

BHD SERIES

Hydraulic Concrete Distributors

1990 senesinde İstanbul'da kurulmuş olan Boom Makina, üretim faaliyetlerini Ömerli-İstanbul'daki tesislerinde devam ettirmektedir.

Boom Makina has been founded in Istanbul at 1990 and continues production activities in Omerli-Istanbul Facilities.

Boom Makina, Türkiye'de Beton Dağıtım Makinası üreten ilk şirket olmakla beraber; yeni teknolojileri üretimine taşıyan, yatırımları ile üretim kapasitesini ve kalitesini arttıran, her geçen gün kendini geliştiren ve ilerleyen bir firmadır.

In addition to being the first company that manufactures Concrete Distributor Machine in Turkey; Boom Makina who integrates new technologies to the production line and increases the production capacity and quality by investments, is a developing and progressive company.

Özellikle son yıllarda yaptığımız AR-GE çalışmalarımızın destekleriyle geliştirdiğimiz BHD Serisi ürünlerimiz inşaat sektörünün en önemli unsurlarından biri haline gelmiştir.

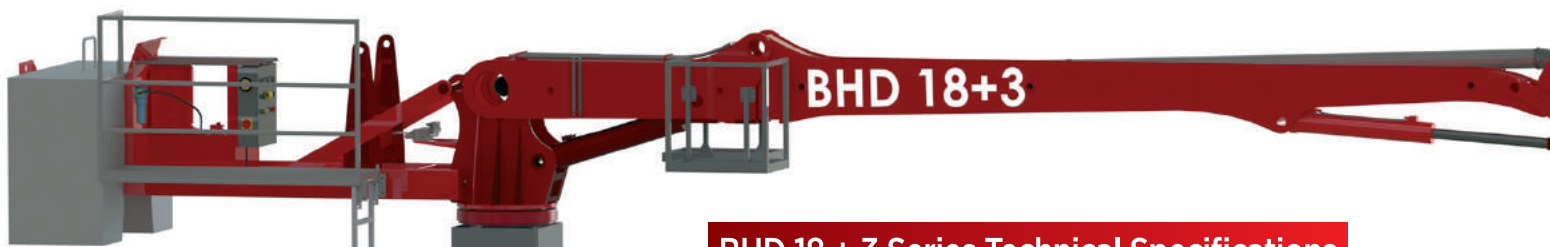

Especially our BHD series Concrete Distributors that we have improved by our R&D activities have been one of the most important elements in the Construction Sector.

Bu kataloğumuzda size; TSE, ISO 9001 ve CE belgeleri güvencesiyle imal ettiğimiz Beton Dağıtıcılarımızın tanıtım ve teknik bilgilerini sunuyoruz.

Inside this catalogue, You are going to find Technical Information about our Concrete Distributors that we produce them with the assurance of TSE, ISO 9001 and CE certificates.

BHD 18 + 3 Series Technical Specifications

Mast Set

x2

Unit weight: 1450kg
 2 x 1450 = 2900kg
 Equipments: 800kg
 Mast dimensions:
 600 x 600 x 6000mm

Weight

Ballast Beam & Mainboom	: 1400kg
Boom Section	: 1745kg
Mast Equipments	: 800kg
Mast Set	: 2900kg
Counterweight	+ : 2500kg
Total	9345 kg

Loads On Slabs

Horizontal Force = $F_{HOR} = 45 \text{ kN}$
 Vertical Force = $F_{VER} = 138 \text{ kN}$
 Lifting Force = $F_{LIFT} = 91 \text{ kN}$

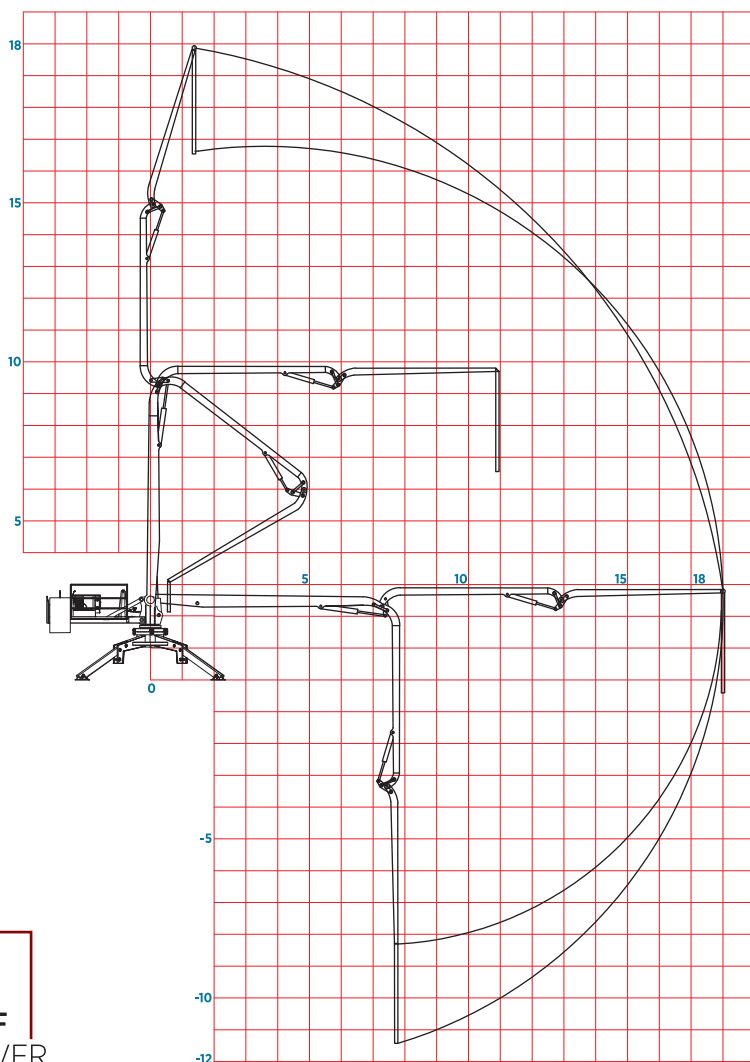

Note: Safety Coefficient $S=1,35$

F_{HOR}

G

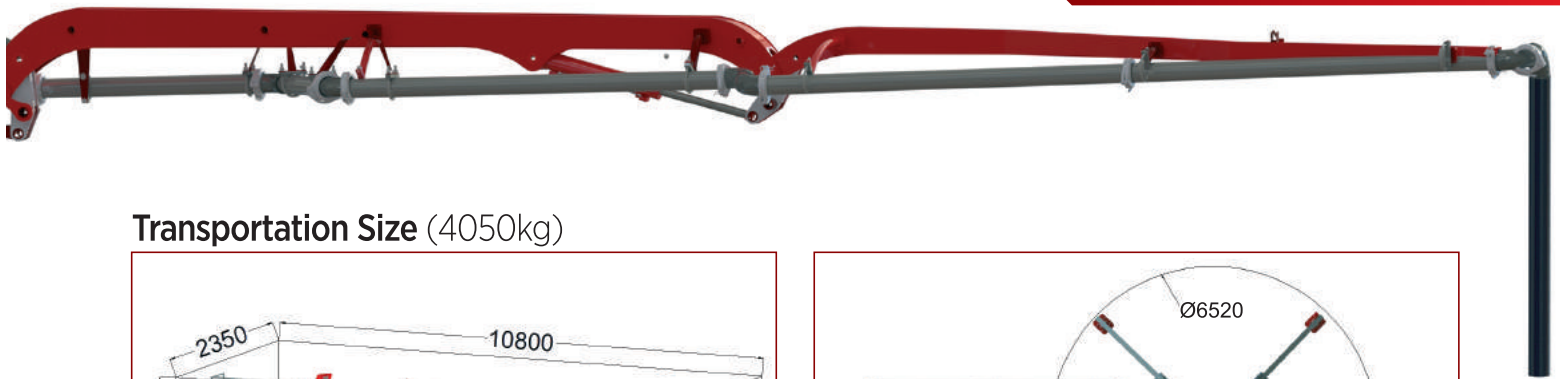

F_{LIFT}

F_{VER}
